

ARNAUD DONNAY

Dynamics 365 / Power Platform Developer

Liege, Belgium | +32 468 37 48 71 | arnaud.donnay0@gmail.com | linkedin.com/in/arnaud-donnay

PROFESSIONAL SUMMARY

Dynamics 365 and Power Platform developer with hands-on experience delivering business solutions across automation, customization, integrations, reporting, and user enablement. Comfortable working across the Microsoft business applications stack to support internal teams and client needs in fast-moving environments.

PROFESSIONAL EXPERIENCE

Analyst Developer | COMPUTERLAND Belgium

Nov 2023 - Present

- Develop and integrate solutions across the Dynamics 365 and Power Platform ecosystem, including automation, customization, and integrations with third-party systems via APIs and web services.
- Build and enhance business solutions using SDK, plugins, scripts, Power Apps, Power Automate, Classic Workflows, and Power BI, including report creation for client needs.
- Create technical documentation, deliver client training, and support end users of customized CRM solutions.

Analyst Developer Intern | COMPUTERLAND Belgium

Jan 2023 - May 2023

- Built tools and supporting libraries to improve the developer and client experience within the Dynamics 365 ecosystem.
- Created Power Apps Component Framework (PCF) components and data-manipulation utilities for Classic Workflows.

TECHNICAL SKILLS

Dynamics 365 & Power Platform: Power Apps (Canvas and Model-driven), Power Automate, Power BI, Dataverse, plugins, scripts, workflows, PCF

Languages & Development: C#, ASP.NET, JavaScript, TypeScript, API and web-service integration, database management

Cloud & Architecture: Azure Functions, Azure Service Bus (queues and topics), technical analysis, UML

Productivity: AI-assisted development with GitHub Copilot, Codex, and Claude Code

EDUCATION

Bachelor of Science in Computer Science | HELMo Haute Ecole

2018 - 2023

- Participated in a Deloitte x HELMo hackathon and developed a responsive web application for timesheet management.
- Completed academic projects spanning desktop and mobile applications, responsive websites, and database management.

CERTIFICATION

PL-900 - Microsoft Certified: Power Platform Fundamentals

Obtained January 2026
